Class Descriptions

Les Mills® Classes

BODYATTACK™ - A high-energy, calorie-consuming athletic workout that will push you past the limit with strong, simple moves and pumping music. This is the most intense workout you'll find in the world of fitness.

BODYCOMBAT™ - This fiercely energetic program is inspired by martial arts and draws from a wide array of disciplines such as Karate, boxing, Taekwondo, Tai Chi and Muay Thai.

BODYFLOW™ - The Yoga, Tai Chi, Pilates workout that builds flexibility and strength and leaves you feeling centered and calm. Controlled breathing, concentration and a carefully structured series of stretches, moves and poses to music create a holistic workout that brings the body into a state of harmony and balance.

BODYJAM™ - The cardio workout where you are free to enjoy the sensation of dance. An addictive fusion of the latest dance styles and hottest new sounds puts the emphasis as much on having fun as on breaking a sweat. Funky instructors teach you to move with attitude through class. So grab a friend, get front and center, and get high on the feeling of dance.

BODYPUMP™ - A rapid fat-burning, full-body class that uses barbells to give you the fastest way to tone and condition muscles!

CXWORX™ - A short, sharp workout that'll inspire you to the next level of fitness, while strengthening and toning your body. In only 30 minutes you will tighten your tummy and butt, while also improving functional strength and assisting in injury prevention.

GRIT™ - This high intensity interval training program will get you fitter, faster. Sessions include strength, cardio, and plyometric focused exercises.

RPM™ - The 45 minute indoor cycling workout where you ride to the rhythm of powerful music. Take on the terrain of hills, flats, mountain peaks, time trials, and interval training. Discover your athlete within!

SPRINT™ - This high intensity workout uses stationary bike resistance to simulate gravity for sprint training, drag for power training, and weight for strength training. You combine bursts of intensity, where you work as hard as possible, with periods of rest that prepare you for the next effort. The payoff? You smash your fitness goals, fast and will continue to burn calories for hours after each workout.

STONE™ - A complete and convenient workout that combines blocks of strength, cardio and core training into one. It includes a mix of exercises to work the whole body and elevate the heart rate. Mind & Body Classes

BARRE - A series of movements that strengthen the entire body, ensuring no muscle is overlooked. Combining functional strength, dance, pilates, and yoga, use bodyweight as a resistance to focus on alignment and optimal posture while enhancing body awareness, coordination, balance, and overall strength. Movements are choreographed to high-energy music which results in a fun, intense, and safe workout. Movements can be customized for all fitness levels-no experience necessary! Various props will be used including the barre, light weights, resistance bands, and yoga props.

PILATES - A series of controlled movements engaging your body and mind that takes place primarily on the mat. As the Pilates method is extremely adaptable, it is also great for individuals just beginning exercise programs or with somewhat limited mobility and flexibility.

STRETCH & MOBILITY - Class will consist of a complete warm up of muscles and joints, will include joint mobility exercises, and a total body stretch. Emphasis will be placed on increasing flexibility and joint mobility, decreasing stiffness, and improving the total body range of motion.

YOGA - Discover the many ways in which yoga can improve your physical health, cultivate your emotional well-being and enrich your spiritual self. Classes designed with a different focus intended yet still allow space for each student to explore their individual practice.

YOGA-MIXED LEVELS - A vinyasa-inspired flow designed to be accessible and rewarding to all levels of experience. This class will move through a sequence of poses in coordination with the breath and will include strengthening, stretching and balancing postures. Modification and props will be offered.
